# LEARNING ABOUT YOUR BOOST

## BOOST

1. Use with caution. Must be 18 years of age or older to operate.
2. The nail becomes extremely hot. Do not touch once powered on.
3. Do not expose the device to direct sunlight.
4. Do not attempt to use the device without the glass attachment in place.
5. Do not attempt to place the device down on a surface without the base. The base is included to ensure proper weight distribution and to avoid damage to the glass attachment.
6. When the battery is low, both white light and blue light will flash 8 times.
7. The light on the power button will flash 3 times to indicate a connection issue.
8. Charging: Charge device fully before use. The power button shows a purple light when the device is being charged. A green light indicates charging has complete.
9. Titanium Nail: Press the power button 3 times to heat titanium nail. The unit will begin with white light and change to blue light after 25 seconds indicating it is ready to use (nail will continue heating for 20 seconds before cutoff)
  - Temperature reaches 515°F after 25 seconds
  - Temperature reaches 610°F after 45 seconds
10. Ceramic Nail: Press the power button 5 times to heat ceramic nail. The unit will begin with blue light and change to white light after 40 seconds indicating it is ready to use (nail will continue heating for 20 seconds before cutoff)
  - Temperature reaches 520°F after 40 seconds
  - Temperature reaches 600°F after 60 seconds
11. Do not heat the device more than 3 cycles continuously to avoid bodily harm or injury.

## ANATOMY

# HOW TO USE YOUR BOOST

1. Load Water  
(Remove glass  
before loading)

2. Click button  
\* 3 times for titanium nail  
\* 5 times for ceramic nail

3. Load product  
on tip of tool

4. Touch tip of the tool to nail  
once light changes color, then  
begin to inhale through glass  
mouthpiece.

5. Once all product has melted  
off of tool, flip tool around and  
place carb cap on top of the  
nail to increase vapor density.  
(Generally 3-4 seconds)

SIT BACK  
AND ENJOY!

## CLEANING YOUR GLASS ATTACHMENT

To clean glass attachment, *first remove the glass attachment from the eRig*, then slowly pour 99% isopropyl alcohol into the mouthpiece until the unit is about 1/4 full. Shake the attachment gently until clean. To rinse out the alcohol, pour water into the top (mouthpiece) until all alcohol is flushed out of the bottom of the attachment. To remove all water from device, blow through mouthpiece and shake gently.

## SWAPPING OUT YOUR NAIL

**WARNING: DO NOT ATTEMPT TO REMOVE NAIL WHEN HOT. DO NOT TOUCH CERAMIC ROD AS IT MAY DAMAGE HEATING ELEMENT.**

Turn nail clockwise to secure nail.

Turn nail counter clockwise to remove nail.

## CHARGING YOUR **DR. DABBER BOOST**

### **USB Port**

Connects to universal  
USB outlets

### **Connecting Adapter**

Connects to top of battery  
to charge

Charge device fully before use. The power button shows a purple light when the device is being charged. A green light indicates charging is complete. Due to the size of the battery, it is recommended to charge 6-8 hours or overnight on an AC adapter to charge fully.
