Vape without holding down the power button.

HOW TO USE AURA WITH OIL / WAX

FILL

Fill with oil

- Fill oil / wax chamber with at least 5 drops of oil (0.2 - 0.3 ml). Let the oil rest for a few seconds.
- Insert the oil / wax chamber into the ceramic heating chamber (Note: Do not turn on the unit while loading the oil / wax chamber)

Fill with wax

- Place wax around the recess of the lid and screw the screw cap onto the oil / wax chamber.
- the oil / wax chamber.
- Insert the oil / wax chamber into the ceramic heating chamber with the lid facing down.
(Note: Do not switch on the unit while inserting the wax chamber).

CLEANING AND MAINTENANCE

The mouthpiece of the Aura can become clogged if used for long periods of time, resulting in difficult draw resistance or less vapor. Use the following guidelines to clean and maintain your device:

- Ceramic heating chamber: use the biirsten tool to gently clean the walls of the heating chamber.
- Ceramic filters: Use a needle carefully inserted between the perforators. Thoroughly penetrate the perforators to release them, and then clean them with a lint-free cloth.
- Mouthpieces: Remove mouthpieces from the unit, wash gently with warm water, sponge and air dry. For stubborn stains, gently massage with a damp cotton swab.

TIPS:

For best results, do not overfill the ceramic heating chamber with fullmasse. Overfilling will cause constricted airflow and uneven vaping. Before filling, use the packing tool to stir to ensure that vapor is released. Prepare the device properly before use to reduce clogging of the mouthpiece.

SAFETY SYMBOLS

The device is equipped with an intelligent safety protection system. However, avoid activities that could damage the battery to prevent short circuits, overcharging or overdischarging to ensure the integrity and efficiency of the unit.

Temperature display (maximum: 230°C).

Desired and / or maximum temperature setting reached.

Battery empty: unit must be recharged

Unit is fully charged

CHARGE BATTERY UNO

CHARGING

- Charge the Aura for 3 to 3.5 hours first. The battery will stop charging when the icon is full.
- Charge the battery using the , nit-supplied micro USB cable to your computer's USB port or to a compatible charger when the charge level is low. You will see the low battery icon.
- Do not use the Aura while it is charging. This will damage the device.
- To protect the device from overheating, do not leave the charger plugged in overnight.
- Do not leave the charger plugged in when the device is unattended.
- Do not charge the charger on a carpet.

BATTERY

The device contains a lithium ion battery. Be careful and dispose of it in the container. Do not dispose of it in the trash. Do not overcharge or short circuit the battery.

SAFETY DEVICES

SLEEP
